

Appendix G – VTR Photo, Model, Craft Contest Rules

The Vintage Triumph Register Photo, Model, Craft Contest Rules

Original on 14 November 1997

Revised: 1 January 2023 by David Pilcher, VTR Events Coordinator

1.0 Purpose

These rules are promulgated to provide a common approach, judging methodology, and display process for use at the annual VTR convention.

1.1 Classes:

There shall be three classes of competition:

1.1.1 Photo:

Photographs in black and white or color. Size is at the choice of the entrant. Optional sub classes: At the discretion of the host club, the photo contest can be sub divided into any classes desired (e.g., color, B&W, etc.).

1.1.2 Model:

Replicas of full-size Triumph automobiles. Models can be built from commercial kits or completely from scratch. Models can be of any scale. At the discretion of the host club, the model contest can be divided into any classes desired (e.g., by scale, by type of model, children's, etc.)

1.1.3 Crafts:

Generally, all other items which are neither photographs nor models. This can include but is not limited to art works, jewelry, needlepoint, displays with models (either completed models from Dinky, Corgi, etc., or built from kits) and the like. At the discretion of the host club, the craft contest can be divided into any classes desired (e.g., art works, children's class, etc.)

2.0 Entry requirements

2.1 Participation:

Limited to photographs taken or models/item(s) made by the actual participant at the convention. Rationale: This class of competition is for recognition of the convention participant's effort... not the effort of people not in attendance at the convention.

2.2 Eligibility:

One item per category per registrant may be entered.

2.3 Limitations:

2.3.1 Any single item may only be entered in two Conventions. If an item is edited or modified to an extent to make it an essentially new item, it may be entered again.

2.3.2 If an item takes first place, it may not be entered again in another Convention.

3.0 Judging

Judging can be at the discretion of the host club. Examples include a participant balloting process (the most frequent choice), a special judging team, or any other methodology.

4.0 Display of entrants

To avoid favoritism, especially in the balloting type of judging, the display of photographs, models and crafts should be devoid of any actual names. Even using car registration numbers can indicate who entered the item. Items should be displayed with a reference number only and a title (if the entrant desires a title).

5.0 Data Retention

Results from all three categories are used in the Carolina's Cup (Appendix H) so the top 5 places in each category need to be captured and reported to the person calculating that award.

6.0 Awards

One award per category (photo, model, craft) will be awarded by the host chapter. Optionally, the awarding of additional awards (e.g. 2nd, 3rd, etc.) is at the discretion of (and cost covered by) the host chapter.
